What are ING Channel?

ING Channel are online banking service that enables the account-holder to access and manage its current account, appoint users, receive information and reports, communicate with the Bank and/or conclude agreements regarding additional services provided by the Bank.

ING Channel are offered by ING only to its non-retail clients.

Please note that the provision of the online banking services listed below may from time to time (also depending on clients' needs be) rendered by other branches or the headquarters of ING Bank N.V.

InsideBusiness

ING InsideBusiness provides easy online and mobile access to a growing range of corporate banking services, 24/7, online and mobile. It will form a gateway for all WB clients and ING's internationally active Mid-corporate clients around the world, to their WB products and services. It will deliver in many areas where clients have asked us to make improvements, providing:

- A single gateway to all ING WB current accounts products and services 24/7 access to critical information that affects their financial positions
- An ability to reach/use that information through any mobile device
- A fully secure environment
- Ease of use InsideBusiness app for real time insights and mToken

InsideBusiness Payments

Inside Business Payments is an interactive platform which allows clients to maintain one central overview and manage their accounts.

Users can generate a variety of manual payments. To process large volumes of transactions quickly users can upload batches via a manual payment file upload.

While InsideBusiness Payments is primarily our European platform, clients can also manage accounts held in other ING countries or third party banks.

InsideBusiness Connect

InsideBusiness Connect is a global host-to-host service for corporates and financial institutions and can be used as single connection to connect to every ING network branch. Enabling automation of the exchange of (bulk) payment and reporting files between customers ERP system and ING. InsideBusiness Connect delivers an FTP connection between the customer and ING, to exchange files. This solution is based on market standards (FTP, FTPS and AS2) for connection and security and the customers can connect their own software or with the InsideBusiness Connect Client software that we offer as an add-on.

ING Service for SWIFTNet

SWIFT's network (SWIFTNet) offers a highly secure and reliable environment for communication between member banks of SWIFT. By using member banks as a gateway to the network, corporates and other financial institutions can use SWIFT infrastructure for communicating with their banks with the same level of security and reliability.

Clients can connect to SWIFTNet directly via a private line, indirectly via a service bureau or directly using a web tool called Alliance Lite.

EBICS

EBICS Global (EBICS) is a standard multi bank communication protocol, used by clients worldwide. With the EBICS communication standard you can connect to ING and other EBICS supporting banks, and manage all your accounts with these banks in one environment

The main risks

The main risks are:

- unfavourable changes in the financial conditions. However, this risk is limited by the corresponding right of the client, in the case of unfavourable changes, to withdraw from the agreement without cost and without penalty prior to the proposed date of the amendments;
- the loss or theft of identification personalized security credentials to access to the service but are also minimized if the users comply with the common rules of caution and care;
- the temporary unavailability of the service for maintenance and updating activities
