The Client shall furthermore take any measure that can reasonably be expected to ensure the security of the personalised security features and shall keep these features, including its Electronic Signature and password, secret from all others. The Client shall store the Authorisation Instrument in a place to which third parties have no access. Subject to evidence to the contrary, the fact that a personalised security feature and/or Authorisation Instrument is used by a third party will constitute proof that the Client has failed to keep or store such items safe and secure and that they were accessible to third parties. The Client shall ensure that Users shall observe and comply with all obligations of this Clause 4.1.
- g The Client shall take note of the information provided by ING in relation to the secure use of an Authorisation Instrument and the measures that the Client must take to prevent fraud or other misuse of such Authorisation Instrument and shall act, and shall ensure that Users shall act, in accordance with such information. ING may change such information and in urgent situations such changes can be applied by ING with immediate effect. ING will inform the Client accordingly.

The means of notification and the contact details of ING can be found in an ING Channel or as otherwise communicated by ING. A failure to notify ING without undue delay constitutes gross negligence of the Client;
- ii immediately send a confirmation in writing to ING of any telephonic notification, which written confirmation must contain the date, time and any further relevant information of such notification; and
- iii forthwith report to the police and the other appropriate authorities the relevant event as referred to above under (i).

Notwithstanding any blocking request, ING may continue the execution or forwarding of Instructions that have been given to ING by such Client or User prior to or shortly after receiving such blocking request if ING cannot reasonably prevent the execution or forwarding thereof.
- c Upon becoming aware of any improper, unauthorised or fraudulent access or use of an Authorisation Instrument or ING Channel by a User or a third party, the Client shall immediately terminate or block such person's access to and use of the Authorisation Instrument or ING Channel and shall inform ING promptly thereof. ING is not liable for any loss and/or damage incurred by the Client. The Client will indemnify ING for any loss and/or damage incurred, as a result of the failure by the Client to comply with this Clause.
- d ING is not liable for any loss and/or damage incurred by the Client or a third party as a result of the blockage.
- e In case of a block by ING, ING shall, where possible prior to such blocking, inform the Client of such a block and the reasons thereof, unless such communication would compromise objectively justified security reasons or is restricted or prohibited by applicable laws or regulations.

- f ING shall unblock an ING Channel or the Authorisation Instrument, or replace the latter by a new Authorisation Instrument, once the reasons for blocking no longer exist.

5 Electronic Contracts/Electronic Signature

- 5.1 The Client may electronically agree to obtain (further) Services from an ING Office through an ING Channel if and to the extent so offered by that ING Office. It will be indicated per Service which requirements have to be fulfilled and when the agreement is effective.
- 5.2 For all Instructions, agreements and communications issued or agreed upon by electronic means through an ING Channel, the Client agrees that its Electronic Signature, or that of a User on the Clients behalf, constitutes proof of its consent and its identity and that it has the same evidential value as a document signed by the Client or User with its handwritten signature.
- 5.3 The Client agrees that Services Documents (including any amendments thereto) and all documents, information and/or conditions as referred to therein may be provided to the Client by electronic means whether or not the Agreement has been concluded electronically.

The PoA is, unless otherwise stipulated in such PoA, governed by the laws of the country of incorporation of the Client. The User so authorised may perform all acts indicated in the PoA in the name and for the account of the Client regardless of any conflict of interest of the User. The Client hereby irrevocably and unconditionally waives any defence or claim it may have based on the existence of any such conflict.
- 6.2 The Client shall ensure that Users are bound by and shall observe and comply with all obligations as indicated in these Conditions and the relevant Services Documents. The Client shall be liable vis-à-vis ING for all obligations pursuant to these Conditions and the relevant Services Documents including, but not limited to, all acts and inactions of Users. - 6.3 If the Client appoints, or has appointed, more than one User, each User is, unless explicitly otherwise indicated

in the PoA, fully competent to severally perform the authorised acts thereunder.

- 6.4** Each PoA is, unless otherwise stipulated, valid until revoked or terminated. If due to applicable mandatory law a validity period has to be assigned then such PoA has, unless otherwise stipulated in the PoA, a validity period of 100 years. The Client must immediately notify ING in a form acceptable to ING of the revocation, termination, expiry or amendment of a PoA regarding any User in writing, or, if such option is available and approved by ING, via an ING Channel. Until ING receives such notification any PoA shall, irrespective of any registration with any public record of the details and/or any changes to it, remain in full force and effect. ING may continue the execution or forwarding of any instruction that has been given to ING by such User prior to or shortly after ING has received such notification if ING cannot reasonably prevent the execution or forwarding thereof. The revocation, termination, expiry or amendment of a PoA does not have any consequences for nor shall affect (the validity of) any (i) Instruction with a scheduled execution date after such revocation, termination or amendment, or (ii) PoA granted by a User prior to such revocation, termination, expiry or amendment.
- 6.5** The Client is, if so indicated by ING, obliged to for and on behalf of ING identify and verify the identity (by means of a valid identification document) each User and, if applicable, verify and validate the specimen signature of such User. At ING's first request the Client will provide such data in a format accessible to ING. ING is authorised to audit, examine and make copies of the data kept by the Client regarding the foregoing, and if so requested the Client must grant ING access to its premises and relevant data and records.
- 6.6** Upon ING's request the Client shall (i) confirm or ratify all acts that any User will have performed pursuant to and within the powers conferred by any PoA and (ii) promptly and duly execute all such documents and instruments, enter into such agreements and do all such acts and things as ING may reasonably determine as necessary in order to give effect to the provisions of this Clause 6.
- 6.7** If the Client has received a PoA from a third party to issue Instructions or perform acts through an ING Channel on behalf of such person, the Client expressly agrees and acknowledges that ING may rely on such PoA as being valid, binding and enforceable until it receives notification to the contrary in writing, or, if such revocation option is available, through an ING Channel.

Annex 2. Security Rules Mobile and Internet Banking

The Client is obliged to ensure that Users are bound by and shall observe and comply with all obligations as indicated in the ING Channel Conditions (the "Conditions") and relevant Services Documents. Each User must take all conceivable measures for the secure use of the App or any ING Channel and the safekeeping of (a personalised security feature of) an Authorisation Instrument. This Annex to the Conditions contains a non-exhaustive high level summary of the security rules a User should observe. This Annex is only provided as guidance for the Client to provide to its Users and does not replace the stipulations and security features as incorporated in the Conditions. ING has the right to revise these security rules with immediate effect without prior notification.

Security Rules Mobile and Internet Banking

When you use an App or an ING Channel (a secure online banking system and/or an electronic communication channel provided by ING) for banking or communicating with ING, it is your responsibility to keep your communication and banking transactions secure. This means observing these Security Rules:

1 Keep your security codes secret

Security codes are passwords, PIN codes and all (other) personalised security features of an "Authorisation Instrument" (any procedure or instrument used to access and use a service of ING and/or give (consent to) an instruction to ING).

- Your security codes are personal: never let anyone else see them and never tell anyone what your codes are.
- Do not write your security codes down or save them in a file. If you have to keep a reminder, make sure it is in a form that will only make sense to you.
- If the system allows you to choose a password, username or PIN, make sure that it is not easy to guess. For example, do not use birthdays, names of family members or postal codes.
- Be careful not to let anyone see what you are keying when you enter a code.
- Never reveal security codes to anyone who asks for them, e.g. on the phone, in an email, an SMS, WhatsApp message or face-to-face. ING staff will never ask you for your codes.

2 Don't let anyone else use your personalised Authorisation Instrument

- Be aware when using your Authorisation Instrument.
- Always keep your Authorisation Instrument in a safe place and take care not to lose it.

- Regularly check that you still have your Authorisation Instrument in your possession.

3 Make sure all the devices you use for banking have proper security protection

- The devices you use for banking, such as your mobile phone, tablet or computer, must have an original operating system that is kept updated to the latest version.
- The software you use must always be up-to-date. If you use an App to access an ING Channel, always install the latest version.
- A computer or laptop you use for an ING Channel must have security protection in the form of antivirus software and firewall.
- Do not install any illegal software.
- Secure access to your mobile phone, tablet or computer by means of an access code.
- Make sure nobody else can use your ING Channel account or App. Never leave your computer, laptop, tablet or mobile phone unattended while logged into the ING Channel or having opened the App. Always log out and lock your device before leaving it unattended or when you have finished using an ING Channel or App.

4 Check your bank account regularly

Whenever you get online or printed statements, check for unauthorised transactions as soon as possible. If ING provides you with transaction details online, check them regularly and at least once a week. If you only get printed statements, check them at least within a week of receipt.

5 Report incidents to ING immediately and take such actions as instructed by ING

You must telephone ING immediately if you suspect that the security of your (personalised security feature of an) Authorisation Instrument, App or ING Channel has been compromised. You should in any case telephone ING in the following situations:

- you know or suspect that someone knows or has used your security details;
- when using the App or an ING Channel, you discover transactions not made by you or another authorised User;
- your Authorisation Instrument, or the mobile phone, tablet or computer you use for online banking has been stolen or lost.

Also call ING immediately if you encounter anything else which is unusual, such as an unfamiliar log-in page.

If ING tells you to take certain action, for example to prevent further incidents, you must act as instructed.
