

Self-certification form to establish tax status for individuals

Based on the Common Reporting Standard (CRS), local law requires financial institutions such as ING to identify customers' tax residence. CRS also requires financial institutions to report financial accounts to the local tax authority, where the account holder is tax resident in a foreign country that participates in CRS. For further information about CRS, please visit the [CRS Information Portal](#).

ING is requesting you to complete this form and provide your tax residency in order to comply with CRS. We will collect, store and share this information with our global affiliates in line with ING's Data Protection Policy and local data privacy laws. We will use the information to determine if your accounts with ING are reportable under CRS and, if required by local law, we will report those accounts to the local tax authority.

Glossary

CRS

CRS is the Common Reporting Standard under which countries that have concluded a Competent Authority Agreement agreed to exchange financial account information..

Participating country

A country that has adopted the Common Reporting Standard and that has concluded a Competent Authority Agreement with the country in which the customer holds the account mentioned in part 1 of this form.

Tax resident

The concept of tax residency may differ from jurisdiction to jurisdiction. Common international criteria that may factor into tax residency include:

- Domicile in a jurisdiction;
- Place where you live (i.e. where you have your personal and economic activities or interests).

It should be noted that a temporary stay in a jurisdiction can contribute to tax residency. Further, it is possible that an individual is considered a tax resident in more than one jurisdiction. Government officials, diplomats and military personnel are generally tax resident in their home jurisdiction. The actual determination of tax residency takes place under the local tax regime(s).

You can check the country specific conditions with the local government. ING is not allowed to provide tax advice to determine a customer's tax residence.

You may want to seek independent professional advice if you are not sure about your tax residence. Please refer to the OECD [CRS Information Portal](#) for an overview of rules governing tax residency in CRS **participating countries**

TIN (or functional equivalent)

The 'Taxpayer Identification Number' (TIN) or functional equivalent is an individual's personal identification number for tax administration purposes. Please refer to the [CRS Information Portal](#) for an overview of domestic rules in CRS participating countries governing the issuance, structure, use and validity of TINs of their functional equivalents.
