¹³ The base for the cost charge is the number of managed accounts on the 26th of the previous month, or if the 26th is no work day, the first following workday.

¹⁴ ING will perform a currency conversion in case the payment instruction requires this. The conversion costs are incorporated in the transaction amount. The Bank executes payment transactions where a currency conversion is required in the following way:

- Transactions up to EUR 100K: using independent market standard reference rates published by Refinitiv (formerly known as Thomson Reuters) every day at 07:00, 11:00, 14:00 and 17:00 hrs. CET. Payments are processed immediately applying the rates of the last previously published Refinitiv rate update plus a service spread.
- Transactions over EUR 100K: using a "real time ING rate", established using a base rate determined on the principle of best execution including a service spread. ING guarantees the best execution principle by applying the best FX rate offered by any of 11 FX market liquidity providers (6 leading banks, 3 Electronic Communication Networks and 2 interbank brokers). The resulting base rate is updated every 2 seconds in our FX platform.

The Details of exchange rate used for specific payment transactions are available on account statements/reporting

¹⁵ SHA: client and beneficiary each pay their own transaction fees

¹⁶ BEN: beneficiary pays all costs.

¹⁷ OUR: client pays all costs.

¹⁸ Bank charges vary per country.
