

Global Finance Names The World’s Best Treasury & Cash Management Banks And Providers 2020

NEW YORK, January 10, 2020 – *Global Finance* has released the rankings for its twentieth annual Best Treasury and Cash Management Banks and Providers by category, region and by country. A full report on this exclusive survey will be published in the March 2020 issue, and winning organizations will be honored at an awards ceremony held at the Harvard Club of Boston on October 7 during the annual Sibos conference. The World’s Best Global Transaction Bank for 2020 will also be revealed for the first time at the ceremony.

Global Finance has selected an overall global winner and global winners in six key sectors. Winners have also been chosen in 68 countries and regionally across four categories in Africa, Asia-Pacific, Central and Eastern Europe, Latin America, the Middle East, the Nordic region, North America and Western Europe. *Global Finance* also selected the Best Treasury Management Systems & Services Providers in 14 categories as well as the Best US Regional Middle Market providers.

Global Finance used a multi-tiered assessment process—which included entries from banks and providers and input from industry analysts, corporate executives, technology experts and independent research—to select the best providers of treasury and cash management services. A variety of subjective and objective criteria were considered, including: profitability, market share and reach, customer service, competitive pricing, product innovation and the extent to which treasury and cash management providers have successfully differentiated themselves from their competitors around core service provision.

“Now more than ever, corporate leaders need real-time data to respond smartly to an environment being constantly reshaped by new technologies and new regulations,” said Joseph D. Giarraputo, publisher and editorial director of *Global Finance*. “Our Treasury and Cash Management Awards showcase the banks that best support corporate clients with up-to-date insights and adaptive new strategies.”
