

## Eneco

### Name of the client

Eneco

### Date

May 2013

### Country / origin

The Netherlands

### Deal type

Green loan

### Industry

Power

### Amount involved

€ 100m

### Company background

Eneco is an international sustainable energy company, focusing on the generation, distribution and supply of (renewable) energy and related services.

Eneco has operations in the Netherlands, UK, Germany, France and Belgium. The Eneco Group headquarters are located in Rotterdam.

### Deal information

€ 100m green term loan facilities with a tenor of 5-7 years for Eneco Holding NV. ING acted as documentation agent.

The facility is to finance 50 “green” projects varying from solar power installations and city heating to sustainable buildings and wind parks in the Netherlands.

ING was mandated to also act as Green Certificate Agent for the three bilateral facilities of €100m in total, that were provided by ING, ASN Groenprojectenfonds and Triodos Groenfond. The facilities include uncommitted accordion and extension options to finance any future investments that may qualify for a green certificate.

### Sustainability

Eneco is regarded as a leading energy company in the transition to sustainable energy supply

- The facilities include uncommitted accordion and extension options to finance any future investments that may qualify for a green certificate
- First financing under this scheme with two “green” banks Triodos and ASN.
